

## Remote Learning Tasks

<b>Subject</b>	The Earth's Atmosphere
<b>Year group</b>	KS4 (Years 10 & 11)

### Tasks

1. Watch the video to introduce the topic **Changes to the Earth's Atmosphere**. <https://www.youtube.com/watch?v=Jl34dmbtmnU> Make notes of the key information in the video. These will help with the remaining tasks and **do not** need to be submitted.
2. Open the **PRESENTATION**. Read the information in the slides. When you reach a QuestionIT slide, answer the question on the correct section of the **QUESTION SHEET**  
Complete Sections A-E. The question sheet can be edited and submitted as detailed below.
3. Open file on **Climate change**. Use the internet and the [support resource](#) to help you to complete the research questions about climate change. This can be submitted on paper on return.
4. Open file **Atmospheric Pollution**. Read the text and solve the crossword clues, if possible print out the crossword and complete. Completed crossword or answers to the clues to be submitted on return to school.

**EXTENSION** – Complete the tasks on the presentation [Extension ThinkIT GCSE Chemistry of the Earth's Atmosphere](#). As much as possible, try to complete these without looking back at your notes and completed notes. How much do you know? Where are the gaps in your knowledge/understanding?

### Support and submission details

For support email [science@manor.school](mailto:science@manor.school)

#### Submit your work to

KnowIT Question Sheet can be edited and submitted by email or Teams to your class teacher. Please do not send completed work to the [science@manor.school](mailto:science@manor.school) email address.

All remaining work can be complete on paper or printed out and submitted on return to school.
